

EDUCATION

Bachelor of Science in Graphic Communications
California State University, Los Angeles

May 2024

- Minor in Computer Science
- GPA 3.9
- Relevant Coursework: Data Structures and Algorithms, Networking & Cybersecurity

TECHNICAL SKILLS

Front End: HTML, CSS, JavaScript, React

Back End: PHP, NodeJS, Git

Database: MySQL, MongoDB (JSON)

Programming Languages: Java, Python, C

PROJECTS

Astrophobia

Senior Design Project

Aug 2023 - May 2024

- Developed a sci-fi-themed e-commerce store with **React** and **Remix** to sell clothing and accessories and enhanced the user interface with **CSS**
- Led and supervised a team of 3 students as the main developer, giving guidance on questions and making sure deadlines and goals were met
- Modeled and prototyped the website with **Figma** to increase efficiency and reduce development time
- Managed the GitHub repository to collaborate on the development process while also ensuring integrity

Cal State LA SWE Chapter website

Society of Women Engineers

Aug 2023 - May 2024

- Reworked the outdated chapter website and made a new one to increase web presence and achieve greater club attendance
- Constructed a new website with **WordPress** from scratch, adhering to the organization's design guidelines
- Assembled a quick start guide for the next person in the position to ensure a seamless transition

Eldoria

CS 2013 - Data Structures and Algorithms

Aug 2023

- Programmed a medieval-themed text-based adventure game called Eldoria using **Java**
- Structured program to include a database and a custom data structure to minimize code for changing characters and dialogue
- Presented the project to a group of students and professors, who were also able to play a prototype and ask questions

Informative Website - Albert Einstein

ASTR 1510 Principles of Astronomy

Dec 2022

- Created an informative and educational website using **HTML**, **CSS**, and **JavaScript** to inform and educate about the life and contributions of Albert Einstein
- Surveyed about 10 people on the design and user-friendliness of the website and made changes according to the results

WORK EXPERIENCE

Front Desk Student Assistant

Housing & Residence Life, California State University Los Angeles

May 2022 - Present

- Communicate information and resources to residents, guests, and staff members by answering questions, addressing concerns, and providing information about the housing facility
- Design posters and flyers for a diversity of community events, holidays, and issues to be addressed
- Supervising students going working community hours

LEADERSHIP ACTIVITIES

Society of Women Engineers, Cal State LA

Aug 2024 - May 2024

- Launched and maintained a new chapter website for the Society of Women Engineers at Cal State LA with **WordPress**, increasing web presence
- Planned and executed a large-scale program for the engineering community on campus, which was attended by about 100 students

Housing & Residence Life, Cal State LA

Aug 2023 - May 2024

- Build a positive living environment for a diverse group of more than 35 residents, often resolving conflicts and navigating resources
- Designed, marketed, and led eight student-centered programs to promote social, education, diversity, health, emotional, understanding, and growth
